Portfolio

Ryummy.com - <https://ryummy.com/>

Personal

AUG 2024 - PRESENT

Reflet - *Co founder & Developer*

<https://www.reflect.app/>

A platform to easily manage and deploy 3D Gaussian Splatting (3DGS) scenes into the website.

Designed, built and launched a web platform featuring 3D Gaussian splat scene editor as well as published npm package as an embeddable viewer library in React. This includes full-stack architecture of uploading and transforming of 3DGS data to DB and Blob storage, user authentication, payment integration of subscription model, implementing cache layer, end-to-end testing and CI/CD pipeline of both web-app and packages.

- Next.js, React, Playcanvas, WebGL, Lerna, Clerk, Stripe, Hono, Redis, Prisma, PostgreSQL, S3, Playwright, CI/CD.
- @reflect/react npm package - <https://www.npmjs.com/package/@reflect/react>
- Github - <https://github.com/Reflect>
- Youtube - https://www.youtube.com/channel/UCVVFVZrukfeW6yQ_Scx1Eeg
